The following questions have been asked and answered:

**Question #1:** According to the document “Amendment 2” it is mandatory to have an Alaska business license per question and answer #4. On the other hand, in Section 3.08 within the Stand Builder RFP, there is this note: Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license. Could you please confirm with us if it is mandatory for our company to have this license?

**Answer #1:** Per the Amendment 2, question/answer #4, it is mandatory for the winning proposer to obtain the Alaska business license in order to do business with the State of Alaska through this formal solicitation. Sec. 3.08 refers only to subcontractors and whether a subcontractor needs to also hold the Alaska business license. If the subcontractor is not completing the work in the state of Alaska, then they will not need a business license.
